

### Think outside the box.

Die-cut graphics are a great way to grab attention. They can be rigid displays or decals. Our die-cut graphics are digitally printed and cut so even a quantity of 1 is cost effective. Choose from a variety of sign boards and decal materials to fit your specifications. Extras such as brochure holders, easels and hanging systems are available. Just about any graphic we produce can be die-cut, so what are you waiting for? Think outside the box.

### Applications

- Point-of-Purchase displays
- Contour cut signage
- Decals
- Standees
- Dangers
- Table tents / cards
- Dimensional signage

### Materials

Just about anything we can print on can be die cut.
