

Impact at the point of decision.

Color Image produces eye-catching signage and graphics that will help you sell more product at the point of sale. Since 1996, we have been providing retailers, product manufacturers and design professionals solutions for P.O.P. signage, visual merchandising and brand promotion graphics. We can handle all aspects of your project from printing and finishing, to display systems and fulfillment.

When you partner with Color Image, you get a complete source for brand building graphics. We have proven solutions that are cost effective and results driven. We have built our systems to provide you with high quality signage on time and on budget. Our experience and knowledge will help you increase brand recognition and deliver a consistent, coordinated signage program.

Customization

Make your signage more effective by tailoring the message for specific markets or locations. We can customize your signage by batches or even individual pieces. Studies show that signage is usually displayed longer when it is specific to the local demographics or contains a retailer's logo.
